'These ancient woodlands are a forgotten gem of Britain and Ireland's landscape. Not only are they rich ecologically, they've helped to enrich our human history, too. This book does a superb job in reminding us that we don't need to look far for the magic of the rainforest - it's right here on our doorstep!'

## ABOUT THIS BOOK

Following his tremendous success in 2013 with *The Ancient Pinewoods of Scotland*, Clifton Bain now turns his attention to the mixed oak, birch and other woodlands that line the west coasts of, north to south, Scotland, Northern England, Wales and Ireland. Correctly described as a rainforest, these trees take a higher rainfall than some areas of the Brazilian rainforest, the unbroken lineage since the Ice Age have provided resource for the human population, habitat for animals and birds, and acted as a lung for the planet.

Published to the same high standards as *The Ancient Pinewoods of Scotland*, *The Rainforests of Britain and Ireland* will be furnished with maps, original artwork, and travel guidance. It will be introduced by Vanessa Collingridge.

## SALES & MARKETING HIGHLIGHTS

- Foreword by Vanessa Collingridge
- The author will be touring with the book and will be appearing on radio and television with coverage in the outdoor/ecological press assured

## ABOUT THE AUTHOR

With over 25 years of experience working on environmental issues, Clifton Bain, now Director of IUCN Peatland Programme, follows his great success in 2013 with *The Ancient Pinewoods of Scotland* with this guide to the mixed woodlands that line the west coasts of Scotland, England, Wales and Ireland.
